FUNDRAISING PLANNER

Brick & Stone Graphics offers an innovative fundraising concept and a simple plan to help your organization get the campaign started. This program offers several options, and the choices made by your planning committee will help us customize the campaign to your specific needs. This planner provides information to help with these decisions. Please read the “Campaign Coordinator Guidelines” before completing this form. Upon completion of the planner, mail or fax it to us. Upon receipt we will open your account and start work on your sample bricks and order forms at no charge. Note that in your packet there is a sample brick order form, and on the other side of that page a sample order form for the larger bricks/tiles. The same format will be used on your custom order form. You can design your own order form if you like, but please submit a copy to us in advance so that we can make sure that it follows our guidelines.

- The bricks/tiles will be installed: _____ over an existing wall
_____ in-ground walkway/patio
_____ on a walkway over existing
concrete sidewalk/patio

There are two types of bricks available – thin or thick. The word “tile” is used to describe anything larger than a 4x8 brick. The price of thin and thick bricks is the same. Available colors of bricks and tiles can be viewed on our website.

Thin Brick: 4”x8” – There are several colors available, and the range of colors should coordinate with most architectures. Stock colors are: Colony Red, Medium Iron Spot-77, and Coppertone. Thin bricks can be installed on an existing wall or over existing concrete sidewalks. Coordinating (cream color) 6”x12”, 8”x8”, 12”x12”, 12”x24”, and 24”x24” tiles are available.

Thick Brick: 4”x8” – Stock colors include River Red, Pewter and Terra Cotta, and all offer a choice of larger bricks/tiles in 6”x12”, 8”x8”, 12”x12”, 12”x24”, and 24”x24”. These are the same color and thickness as the 4”x8” bricks.

If your group already has bricks, please provide samples so we can verify that they are suitable for engraving. The engraving price is the same whether we use your bricks or ours. If we match an existing installation – please send us a picture via email (jpg) so we can match font and brick color. We also engrave on clay pavers as well.

- Our brick choice is: _____ thin bricks _____ thick bricks
- Our color choice is (refer to the above list): _____

First installation is set for approximately: _____

Your organization must decide how much to charge for each brick or tile. Refer to our updated Price Sheet (effective 7/1/07,) for the most current price information. The price you decide on should include the cost of installation, shipping, and miscellaneous expenses (printing of order forms, postage, etc.). In addition, be sure to consider whether your group will want to purchase any blank bricks or tiles, as that will affect the total cost. To determine the installation cost, call and request a quote from the company or individual that will be responsible for your installation. We are a distributor for pavestone (the Brick we use) so we can get your blank bricks.

** We will need this form completed each time the contact person (Campaign Coordinator) changes. Additional copies can be downloaded from our website.
